Marathon Facts

- Marathon Oil Corporation is an integrated energy company focused on value creation through the responsible development of liquid hydrocarbon and natural gas resources to help meet the world's energy needs
- Active on four continents
- Seeking to establish new core area in Indonesia
- Strongly committed to the communities in which it operates
- Opened office in Jakarta in 2006

Marathon in Indonesia

In September 2006, the Indonesian government awarded Marathon a 70 percent working interest and operatorship of the Pasangkayu Production Sharing Contract (PSC) covering an area of 4,707.63 sq. km. (approximately 1.2 million acres). Talisman (Pasangkayu) Ltd. holds the remaining 30 percent interest. The PSC, predominantly offshore western Sulawesi in the Makassar Strait, lies directly east of the prolific Kutei Basin hydrocarbon province.

The Company completed 3-D seismic acquisition in May 2008. Drilling will be undertaken as part of the Makassar Strait Explorers Consortium (MSEC) program, of which Marathon is lead operator. Marathon, on behalf of MSEC awarded the drilling rig contract to PT Transocean Indonesia for the GSF Explorer drillship. Drilling will commence in 2010.

In October 2008, Marathon was awarded a 49 percent interest and operatorship in the Bone Bay PSC. The Bone Bay PSC has an area of approximately 1.23 million acres and is located predominantly offshore southern Sulawesi Island, in the Bone Bay region. It is a high potential, underexplored area with water depths ranging between 165 to 6,500 feet. The Bone Bay PSC is located about 200 miles southeast of Marathon's Pasangkayu Block.

February 2009

Marathon Oil Corporation 2008 At A Glance
(data as of 12/31/2008)

Revenues:
$77 billion

Net Income:
$3.5 billion

Capital Expenditures:
$7.1 billion

Net Liquid Hydrocarbon Sales:
211 mbpd

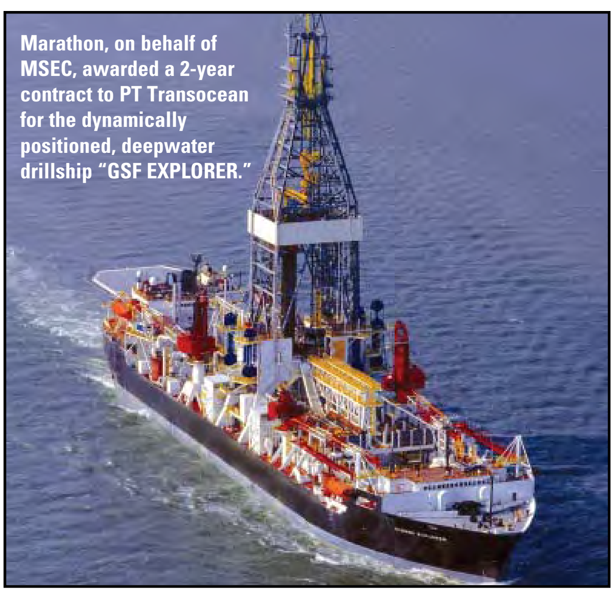
Net Natural Gas Sales:
1,016 mmcfd

Net Proved Liquid Hydrocarbon and Natural Gas Reserves:
1.2 billion boe

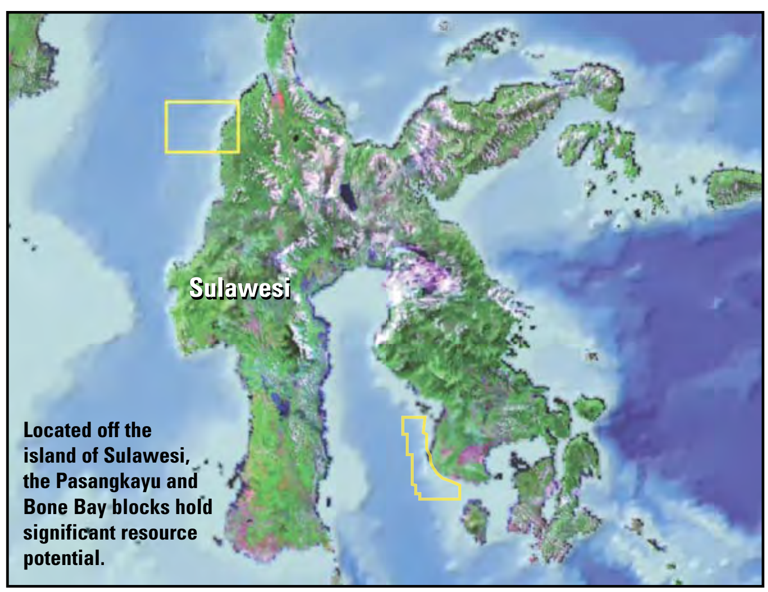
Net Proved Bitumen Reserves:
388 million barrels

Refining Capacity:
1,016,000 bpd

Refined Product Sales:
1.35 mmbpd



Marathon, on behalf of MSEC, awarded a 2-year contract to PT Transocean for the dynamically positioned, deepwater drillship "GSF EXPLORER."



Located off the island of Sulawesi, the Pasangkayu and Bone Bay blocks hold significant resource potential.

Mobile Library at Pasangkayu District

Marathon supports the local community through a commitment to corporate social responsibility. This includes projects to improve healthcare and water quality for numerous communities in the West Sulawesi Province. Additional sustainable projects are being identified by the local communities.

What Makes Us Different

As a mid-sized company, Marathon uses its size and scale to an advantage. With a focus on cutting-edge technologies and a willingness to be innovative, Marathon links its technical strength, commercial skills and international stature with the speed and agility of a smaller enterprise.

Marathon values its employees, investors, customers, business partners and neighbors. It recognizes the need to conduct its business with the highest standards of integrity, in an environmentally responsible manner and with the highest regard for the safety and health of its workforce and of the communities in which it operates.

About Marathon

- Fourth largest U.S.-based integrated global energy company
- Operations include successful exploration and production operations complemented by a top-tier refining, marketing and transportation network, integrated gas projects around the world, and a new focus on oil sands mining

Exploration and Production

- Existing exploration and production in the United States, Equatorial Guinea, Libya and the North Sea
- Interest in operated and non-operated exploration stage in-situ oil sands leases in Alberta, Canada
- Developing potential new core areas in Angola and Indonesia

Water sanitation at local village school

Refining, Marketing and Transportation

- Fifth largest U.S. refiner
- Seven refineries with a combined capacity of more than 1 million barrels per day
- Retail marketing system comprises approximately 6,200 locations in 18 U.S. states
- Operates, leases or has ownership interest in approximately 10,000 miles of pipeline

Integrated Gas

- Links stranded natural gas resources with areas where supply gap is emerging due to limited production growth and increasing demand
- Adds value by applying liquefied natural gas (LNG) and other gas commercialization technologies and expertise

Oil Sands Mining

- Owns 20 percent outside-operated interest in Athabasca Oil Sands Project (AOSP) in Alberta, Canada
- Has ability to align production from this asset with existing and planned heavy oil upgrade projects within its refining system

Sea-grass income generating project
