

2008 Annual Report

Marathon

Marathon posted another successful year in 2008, a particularly noteworthy accomplishment amid economic turmoil and extreme volatility in crude oil, natural gas and other commodity prices.

Under a disciplined investment program, the Company witnessed growth across all business segments, initiated first production from three developments, announced new exploration discoveries and progressed major projects. Throughout the year, Marathon maintained a solid financial position and a focus on shareholder value enhancement. A detailed review of Marathon Oil Corporation 2008 results starts on page 18.
